

QUEENSLAND FRUIT FLY

Backyard jobs for WINTER

NOW IS THE TIME TO:

- Prune fruit trees to a manageable height for ease of fruit picking and netting
- Replace unwanted QFF host trees with non-host plants

Remember! In WINTER the risk of QFF fly is lower but winter fruits can provide a food source for overwintering fruit flies. These include apples, pears, quinces and pomegranates left hanging on trees and ripe winter citrus such as oranges, mandarins and grapefruit.

DPI QFF factsheets for the home gardener are available:
www.dpi.nsw.gov.au/agriculture/pests-weeds/insects/qff
